

Birch Island Lake received an APM-Aquatic Plant Management grant.

Burnett County staff conducted two lake aquatic plant surveys last summer. An update was given at the BILA meeting in the fall of 2019. A committee was formed to help develop goals for the APM plan. The APM plan is being written by County AIS staff. After the plan is written, it will be presented at a public meeting in spring/summer 2020 for review and comments. After BILA approves the plan, it will be submitted to the DNR for approval.
